

**Legislative Department
Seattle City Council
Memorandum**

Date: June 14, 2012
To: Government Performance and Finance Committee
From: Patricia Lee, Council Central Staff

Subject: C.B. 117472 Position List

Council bill 117472 adopts the citywide position list for 2011 establishing all regular full-time and part-time positions in the City's departments and offices. The positions are organized by department and lists the classifications, full or part time status, and number of positions in each city department or office as of January 2011.

The 2012 Citywide Position List reflects modifications made to the 2011 Citywide Position List through:

- 1) The 2012 City budget approved by the City Council in November 2011
- 2) By ordinances passed by the City Council during 2011 and
- 3) Reclassifications made by the Personnel Director during 2011.

The City Charter requires that all position modifications be approved by the Council by ordinance. However, reclassifications into an existing job classification and pay scale and that do not change the classification's civil service status can be approved by the Personnel Director.

This legislation does not authorize any new positions or any position modifications not previously approved in 2011 through items 1-3 above. The legislation does not include Temporary (TES) or Emergency Positions, but does include Sunset Positions.
